Checklist to choosing the right eCOA/ePRO

For many clinical trials, having reliable eCOA/ePRO (Clinical Outcome Assessments/Patient Reported Outcomes) is essential. It is important to have a eCOA/ePRO that is flexible and includes vital functionalities. Start reading this guide and choose the right eCOA/ePRO tool for your next study. If you have any questions about the content outlined in this checklist or are interested in learning more about our products, please contact:

marketing@clincapture.com

Does your eCOA/ePRO include the following features/functionalities?

- Is your eCOA/ePRO flexible and can be easily triggered with on-demand and on-schedule rules?

- Does your eCOA/ePRO allow for videos to be embedded?

- Is your eCOA/ePRO fully accessible on any desktop or mobile device with no limitations to accessing on IOS or Android devices?

- Can the electronic collection of the eCOA/ePRO data be accessed without requiring special hardware?

- Does the eCOA/ePRO allow participants to receive a timed-expiration secure token by email to use on any device with internet access and any HTML5 web browser, including Chrome, Firefox, Safari, Internet Explorer, and Microsoft Edge?

- Does the eCOA/ePRO provides text and scale based questionnaires configured in an EDC system with custom development provided by the EDC provider ?

- Does the eCOA/ePRO provide progress tracking and completion status in an EDC system for site monitoring and follow-up?

- Does the eCOA/ePRO unify participant responses with clinical data in an EDC system to simplify data review and dataset extract?

- Does the eCOA/ePRO provide compliance reports with survey status, dates for survey sent, and reminders?

- Does the eCOA/ePRO offer email servers or has a plugin that allows reminders to be sent to participants? Can email engagements be tracked in the system to monitor if participants reads them?

Are you looking for a robust eCOA/ePRO tool with an EDC system? Learn more about ClinCapture's Captivate EDC by requesting a demo at www.clincapture.com/demo

About ClinCapture

ClinCapture provides a powerful eClinical platform that enables sponsors and CROs to rapidly build and deploy studies, lower clinical trial costs, and streamline data capture processes. Offering a host of private cloud solutions, ClinCapture's technologies help advance the evaluation and development of drugs, biologics, and devices that demonstrate promise for the diagnosis and/or treatment of a wide range of diseases or medical conditions. For more information, please visit clincapture.com or follow us at @ClinCapture
